You do not need a Zoom account to participate in a Zoom meeting, but you do need to download the Zoom App to view and take part with the meeting.

Download the App before your first meeting.

(Once *this is done*, you are then able to participate in all the Zoom meetings)

Download the Zoom App at <http://zoom.us/download> and choose ZOOM CLIENTS FOR MEETINGS Download

Join the Meeting

Just click on the link to join the meeting, you may have to enter the meeting I.D. and password if prompted. This link is sent to you with your invitation to the meeting.

A screenshot of the Zoom 'Join Meeting' dialog box. The dialog has a white background and rounded corners. At the top, it says 'Join Meeting' in bold. Below that is a text input field labeled 'Meeting ID or Personal Link Name'. Underneath is another text input field labeled 'Your Name' with 'Your Name' entered. There are two checkboxes: 'Don't connect to audio' and 'Turn off my video', both of which are currently unchecked. At the bottom right, there are two buttons: 'Cancel' and 'Join'.

Once you are in, you can change the settings to suit yourself and arrange the screen to view the participating people, I.E. put the screen into “Grid View” so you can see everyone.

This is very Helpful
